EDUCATION

BS Telecommunication

Hazara University
Mansehra, KPK, Pakistan
2024 – 2028
CGPA: 3.67 / 4.00

TECHNICAL SKILLS

AI & ML

- Machine Learning
- Deep Learning
- Agentic AI
- Computer Vision
- Neural Networks

Programming

- Python
- SQL
- HTML5 / CSS3
- Git & GitHub

Data Analytics

- Power BI
- Microsoft Excel
- Data Visualization
- Dashboard Dev

CERTIFICATIONS

- ✓ Microsoft Office Professional
- ✓ Data Science Certification
- ✓ Analytical Skills Certification

LANGUAGES

Urdu — Native
English — Professional

INTERESTS

- › Artificial Intelligence
- › Data Science
- › Telecommunication
- › Deep Learning
- › Research & Innovation

PROFILE

Motivated and results-driven AI Engineer and Data Science enthusiast, currently pursuing a Bachelor of Science in Telecommunication at Hazara University, Pakistan. Passionate about designing intelligent systems using Artificial Intelligence, Machine Learning, Deep Learning, and Data Analytics to solve real-world challenges. Known for being a quick learner, analytical thinker, and tenacious problem solver with strong communication skills and the ability to adapt quickly to new technologies. Experienced in transforming data into actionable insights.

PROFESSIONAL EXPERIENCE

Data Science & AI Intern

1 Year

Devsil

- › Assisted in developing Machine Learning and AI-based applications.
- › Built and evaluated predictive models using Python.
- › Performed data preprocessing, cleaning, and feature engineering.
- › Created dashboards and analytical reports using Power BI.
- › Collaborated with development teams to deliver intelligent software solutions.
- › Improved model performance through experimentation and optimization.

PROJECTS

Personal Portfolio Website

■ sohail.devsil.com

Designed and developed a modern portfolio website to showcase projects, certifications, technical skills, and achievements with a responsive and user-friendly interface.

CNN & LSTM Deep Learning Project

Designed and implemented deep learning models using Convolutional Neural Networks (CNN) and Long Short-Term Memory (LSTM) architectures for image analysis and sequence prediction. Applied data preprocessing, model evaluation, and optimization techniques to improve prediction accuracy.

PROFESSIONAL SKILLS

- Analytical Thinking
- Communication
- Adaptability
- Critical Thinking
- Leadership
- Quick Learner
- Problem Solving
- Teamwork
- Time Management
